Experience

Amazon.com

Mar. 2024 – Present

I work for an Amazon best seller as a part time job, helping to develop their online shop A+ advertisement page and organize their data on advertising. I help to deal with analyzing the data reflected from the seller's Amazon shop, so as to help the seller control and reduce the cost on advertisement. Meanwhile, I make various original posts and decorate their Amazon pages. During the work, I have developed my data analyzing skills and had a more specific and practical opinion on the business of international trade and online business. I will continue to work on it.

Hong Kong Film Directors Association

Jan. 25 2024 – Jan. 26 2024

I participated in the Hong Kong Film Directors' Guild Master Class in Film Directing Showcase. During the event, I watched and studied 6 movies on the theme of Human To Human and Deg Of Separation. I communicated with the director Zhili Zhang about his film Redemption of the general, discussing on whether we should apologize to the people we have hurt. Finally, we came to an conclusion that film is a good communication technology not only to tell stories but also to spread culture and history. This made me realize how to use the videos and other communication technologies better to study and spread culture. Additionally, I have learnt various skills in cinematic fields.

Hong Kong University

Jan. 22 2024 – Jan. 26 2024

I participated in HKU taster seminar series for overseas students. During the project, we were divided into 10 different groups including 10 people each. I studied in different faculties like faculty of law and faculty of art. I also took part in interesting workshops which enable me to get in touch with various other subject I haven't learnt at high school. At the end of the project, I also made a public speech on behalf of our group. After the project, I had a clearer understanding on different faculties and gained a few academic skills.

Beijing Foreign Study University

Jun. 22 2023 – Jun. 27 2023

I participated in the BFSU Master Class for young talents and got a certification. During the program I led a group to make a presentation on the topic of communities, LGBTQ. It is a quite risky choice but we made it. In addition, this presentation helped us gained a 1st prize in the class. Meanwhile I planned and held a gala for all participants as three of the directors with other staffs. During the project, I have developed team cooperation skills better and made myself more experienced in organizing Large-scale event. Yet, I felt that I was a little poor at making a presentation in front of multiple people. Thus, I have to develop that more.

Shenyang Railway Experiment High School

Mar.10 2023 – Mar.17 2023

I worked as a director for a music show of the school gala to make sure the combination with instruments which was from China and Europe could work well together. Working as a director, I made communication with different parts of the show and spent time with the actors to help them develop the right rhythm. At the same time, I designed the whole showcase including editing the music, designing the dance, designing

the clothes and background etc. The show was successful. Yet, lacking more professional knowledges on classical music made it a little hard for me edited the classical music parts of the music. So, I would going to learn more on art and design fields.

Shenyang Railway Experiment High School

Nov.2024

I cooperated with the teachers as a member of student union during the sports meeting. It helped me to develop a stronger relationship with other students and make my cooperating skill better.

China Volunteer Service Platform

Sep. 2022

I worked in the Mozishan City Reading Lounge with their staffs helping them with organizing books and helping the customers to look for the books they want. It was during the COVID-19 pandemic, so I also helped cleaning and disinfecting. Doing a voluntary work in a library seems to be a quite boring job, but working with the staffs helps me learn several skills. I came to know how to organize things better and work more efficiently.
